
STUDENT ASSESSMENT INFORMATION

TLIC107C DRIVE VEHICLE

This unit involves the skills and knowledge required to drive commercial light vehicles and cars safely, including the systematic, safe and efficient control of all vehicle functions, monitoring of traffic and road conditions, management of vehicle condition, and performance and effective management of hazardous situations. Assessment of this unit will usually be undertaken within a licensing examination conducted by, or under the authority of, the relevant State/Territory Road Traffic Authority. Persons achieving competence in this unit will need to fulfil all of the relevant State/Territory learner permit or driver licence requirements before driving a vehicle on a public road.

Competency Unit Elements:

1. Drive the vehicle

- a. Vehicle is started, steered, manoeuvred, positioned and stopped in accordance with traffic regulations and manufacturer's instructions
- b. Engine power is managed to ensure efficiency and performance and to minimise engine and transmission damage
- c. Driving hazards are identified and/or anticipated and avoided or controlled through defensive driving
- d. The vehicle is driven in reverse, maintaining visibility and achieving accurate positioning
- e. Vehicle lights and indicators are used in accordance with traffic regulations and manufacturer's instructions
- f. The vehicle is parked, shut down and secured in accordance with manufacturer's specifications, traffic regulations and workplace procedures
- g. Appropriate procedures are followed in the event of a driving emergency

2. Monitor traffic and road conditions

- a. The most efficient route of travel is taken through monitoring and anticipation of traffic flows and conditions, road standards and other factors likely to cause delays or route deviations
- b. Traffic and road conditions are constantly monitored and acted upon to enable safe operation and ensure no injury to people or damage to property, equipment, loads and facilities

3. Monitor and maintain vehicle performance
 - a. Vehicle performance is maintained through pre-operational inspections and checks of the vehicle
 - b. Performance and efficiency of vehicle operation is monitored during use
 - c. Defective or irregular performance or malfunctions are reported to the appropriate authority
 - d. Vehicle records are maintained/updated and information is processed in accordance with workplace procedures
