Departure details TBC 2010* A Remote Cross Country 15 Day Expedition Doctor Hicks Range (And Points North) in the Great Victoria Desert 26th June to 10th July 2010

\$2,494 per vehicle For all those lucky people who have been away with Campfire Escapes on our "Great Victoria Desert" expeditions, you will know the type of areas we find ourselves in on these long remote excursions. Well I can tell you for sure, that this one's going to be no different. If you haven't been away on this type of trip with us before, all I can say at this point in time is, that we shall be visiting some very remote off track locations. It's our belief that some of them, have hardly ever been visited by white man since the world began and definitely not by us. All vehicles will need to carry water and supplies for 15 days remote travel and some to spare. All vehicles will require Cross Ply Tyres (Not Radials) and preferably split rim wheels. This trip is not suitable for camper trailers or "soft-roaders". Vehicle places are going to be limited to 10 and will be inspected at a vehicle shake-down a few weeks prior to departure.

Plan to depart Perth 8.30am Saturday 26th June 2010

<Back to top> <Go to booking/enquiry form> Wildflower Magic 3rd September to 5th September 2010 \$395 per vehicle West Australian Wild Flowers are some of the most spectacular anywhere in the world, provided you know where to look. It's difficult to miss the huge fields of yellow Canola or the wonderful swathes of colour as you take a drive through on the black top, but by venturing off road you will be entering another world. Campfire Escapes not only hunt out those extra special places to visit and find that rare Orchid or Wreath Lechenaultia you've always been looking for, and those wonderful scenes of Everlasting colour, but offer the excitement of doing it in your own 4WD, off road, in the safety of a group of like minded people. Picture postcards of Golden Canola, Shimmering Wheat crops and Salt Lake reflections can complement the incredible splendour of the Wildflower Wonderland through the Mid-West and surrounding Mulga Wilderness. Excitement and splendour are all part of this Wildflower Wonderland tour. We chase the flowers according to the weather patterns, and the specific locations we are visiting are decided upon closer to the date of departure to maximize the beauty of the flowers in this magnificent weekend away. This trip is suitable for camper trailers and "soft-roaders".
